

Dear Families,

Our school family has many "Take Home Bags". These bags were specially prepared to connect our school family with our home families in a meaningful and enjoyable way. These bags contain specific activities with materials for each purpose. We have bags for special occasions, bags to extend things we are learning, and bags for specific projects. Some bags are kept for one night, others are kept for several. Please talk with your kindergartner about the care and responsibility needed when it's your family's turn with a bag. We want every family to have the same experience. If you would like to participate in our Take Home Bags program (and I hope you do!), please sign and return the form below by Friday. Thank you for your support!

___ Yes, our family would like to participate in the Take Home Bags program. I understand that the Take Home Bags need special care and responsibility so that all home families get a chance to use them. I'll do my best to care for them!
